MALAYSIA EQUITY GENETEC TECHNOLOGY BHD

RESULTS REPORT

YTD 4Q FY12 revenue increased by 26.3% vs YTD 4Q FY11, however operating profits decreased by 50.7% due to higher operating costs associated with the consolidation of Genetec's recent acquisitions. Looking ahead, however, operating margins are recovering on the back of a larger order book and higher capacity utilisation. Though we may later raise our target price higher, we are still mindful of softening conditions in Europe and China. While GTB is not directly exposed to these economies, PC demand remains soft in the US and may even decline further as business sentiment in US grows increasingly fragile.

INVESTMENT RISKS

Risks to our recommendation and target price include: i) softness in the demand for laptops and desktop computers, ii) a higher level of interest rates, iii) a renewed slowdown in the general level of economic activity in Malaysia or among its major trading partners: Singapore, China and the LIS

RECOMMENDATION

We upgrade our recommendation on Genetec Technology Bhd to BUY with a fair value estimate of MYR 0.26. Whilst GTB's shares are trading at the low end of its 5-year valuation band, average ROE is likely to remain in the neighbourhood of 12-14%. Earnings multiples stand on 6.5x FY Mar 13 profits, whilst P-BV is standing on 0.9x FY Mar 13 book value.

Net margins at GTB are likely to remain in the range of 5-7% over the next few quarters as costs remain elevated and HDD demand remains sluggish. Though HDD demand remains tepid in aggregate, Western Digital Corp's ("WDC") global market share has risen from 30% to 45%, which should augur well for GTB down the road. As mentioned above, GTB is enjoying a larger order book. We do note that GTB's recent acquisitions have added considerably to debt. Unless local interest rates rise considerably, however, GTB's interest coverage will remain quite healthy.

COMPANY PROFILE

Genetec Technology Bhd ("GTB") is mainly involved in the design and sales of industrial automation equipment. Prior to their latest acquisitions, the Hard Disk Drive ("HDD") segment accounted for approximately 90% of total turnover. Recent corporate exercises have more than doubled GTB's revenue and profits and will give them additional capacity to meet new orders from WDC. The company was formed in 1997 and converted to a public limited company in 2004, prior to listing in 2005.
